YOUR RESPONSIBILITIES AT CF DURING A HURRICANE

BEFORE THE STORM
1. Login to the MyCF portal and verify your contact information for the RAVE Emergency Notification System. You may add emails, telephone numbers, etc. If you do not have access to the MyCF portal, contact the Help Desk at 352-854-2322, ext. 1378, to be added manually to the RAVE system.

2. Ensure your name, address and telephone number are accurate with Human Resources. Log on to MyCF, click Personal Info and then Biographical info. To update, go to Inside.cf.edu, forms, Human Resources, update Name and Address Change form.

3. Periodically check your email when a storm begins to approach our area. (From home, go to https://webmail.cf.edu, type in admin95\username and your password.)

4. Conduct any last-minute backup of data on your computer.

5. When the CF president announces the closing of the college, please complete the following before leaving your department:
   - Take the emergency information number with you (352-291-4499).
   - Department heads should ensure that all team members follow hurricane procedures in this document.
   - Log off and power down computers. Do not unplug. Do not cover.
   - Remove contents from refrigerators.
   - Leave electrical appliances plugged in.
   - Secure all important items.
   - Place electronics and other items subject to flood damage as high as possible, such as on counters, shelves or desks.
   - Move items away from windows.
   - Close and lock all office and classroom windows and doors in your department.

DURING THE STORM
1. Tune in to local TV or radio stations or monitor online news sites for news and weather. Make sure you have plenty of fresh batteries for your radio.

2. Have your emergency survival kit ready to go if told to evacuate.

3. If advised to evacuate, tell others where you are going, turn off utilities if instructed, leave immediately and following routes designated by local officials.

AFTER THE STORM
1. CF will remain closed to ALL employees until an immediate danger assessment is reported to the president. A damage assessment must be made before any cleanup efforts begin. Do not return to CF while the college is closed unless you are contacted by your supervisor and told you are needed. All essential personnel reporting to the college while the college is officially closed must check in with CF Public Safety.

2. Reopening information for employees and students will be available at www.CF.edu and 352-291-4499. Announcements will also be made by local media.

Let’s work together to keep our college as safe as possible in the event of a hurricane.
CF HURRICANE PREPARATIONS

**STEP 1**
The National Hurricane Center announces a hurricane watch.

**STEP 2**
The CF president, Plant Operations and Public Safety begin to monitor weather conditions.

**STEP 3**
If the tricounty area is in the projected storm path, Plant Operations and Public Safety begin making preparations for the safety and security of CF employees, students and college property.

**STEP 4**
The president decides if and when to close the college and determines what additional preparations need to be made. The closing may affect the entire college, or just specific campuses and sites.

**STEP 5**
Official notice that the college will close, and at what time it will close, will be announced to employees by broadcast voice mail and email, and to students by the local media and on the website. RAVE Alerts will be issued to individuals with information on file.

**STEP 6**
College officials and essential personnel (employees who are needed to help with hurricane preparations) will monitor the storm, secure the college and assist with the evacuation of students and employees.

**STEP 7**
Once the affected college campuses and sites are secure, only specific essential personnel will remain at the sites. When college sites are closed, timely evacuation from the sites is mandatory.

---

**SURVIVAL KIT BASICS**
- One gallon of water per person, per day, for three to seven days
- Three- to seven-day supply of nonperishable food, juices, nonelectric can opener, cooking tools, fuel
- First aid supplies
