

Direct Download Mobile Office for Mac

By clicking on the direct download link, you will be prompted with this alert. Click **Save File**.

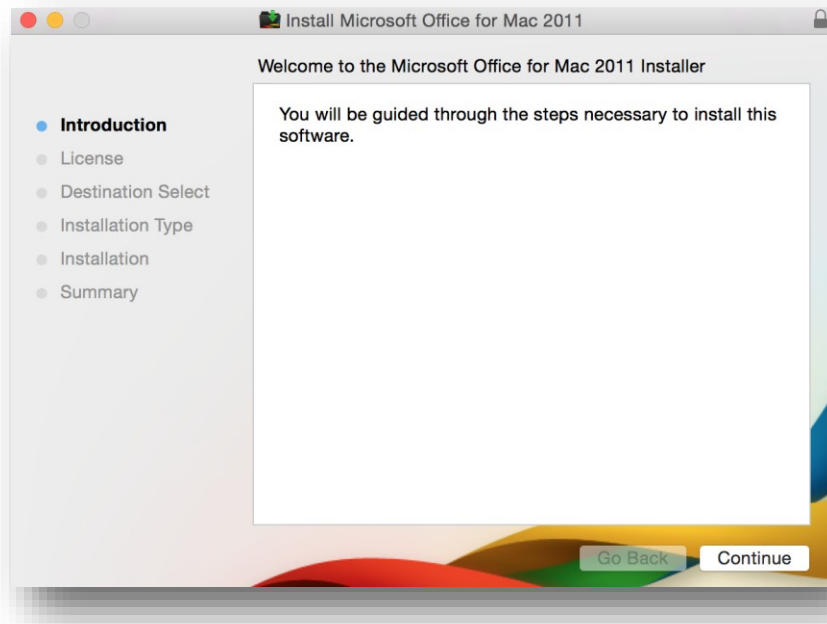

The file will begin downloading on your computer.

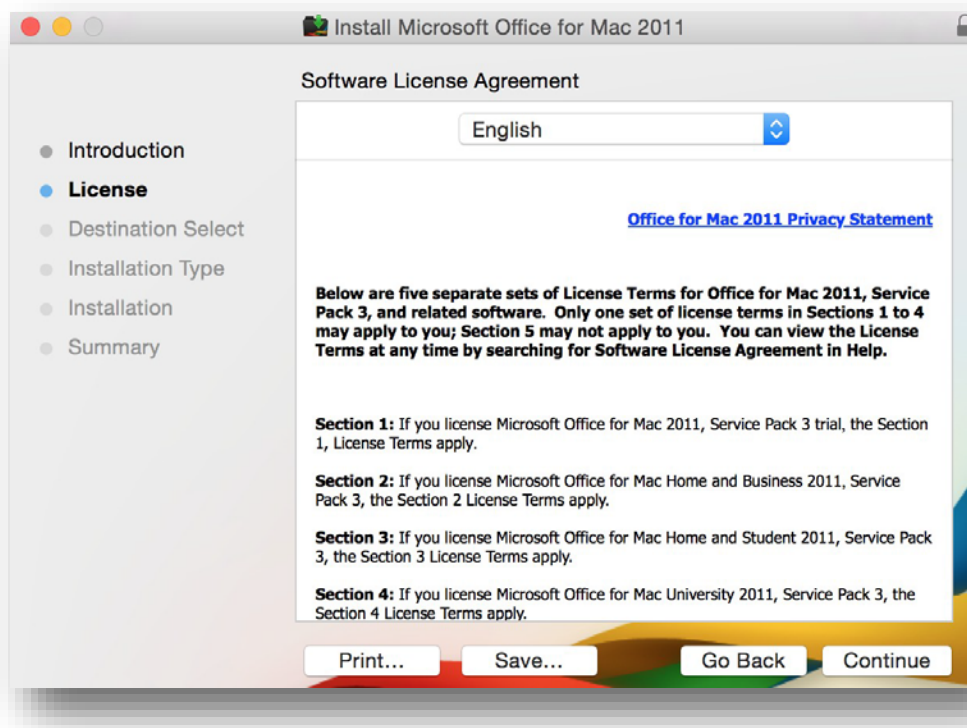

The Office Installer will show once the file has finished downloading. Click **Office Installer**.

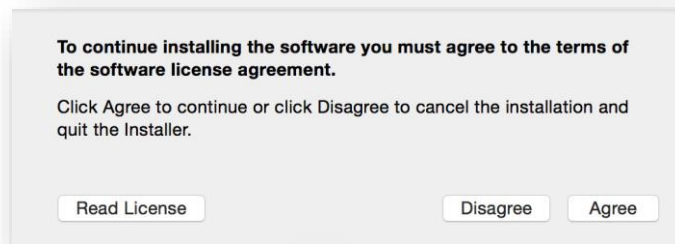

Click **Continue**.

Click **Continue** again.

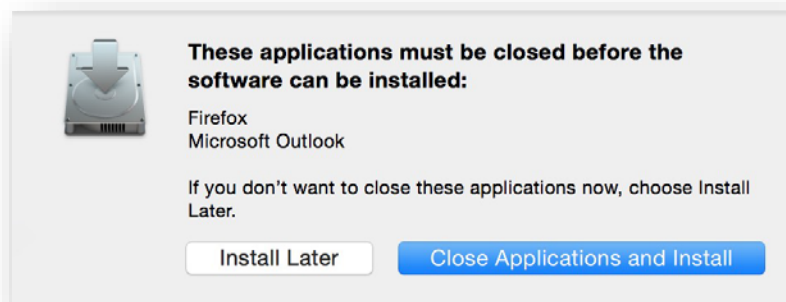

Click **Agree** if you agree with the terms.

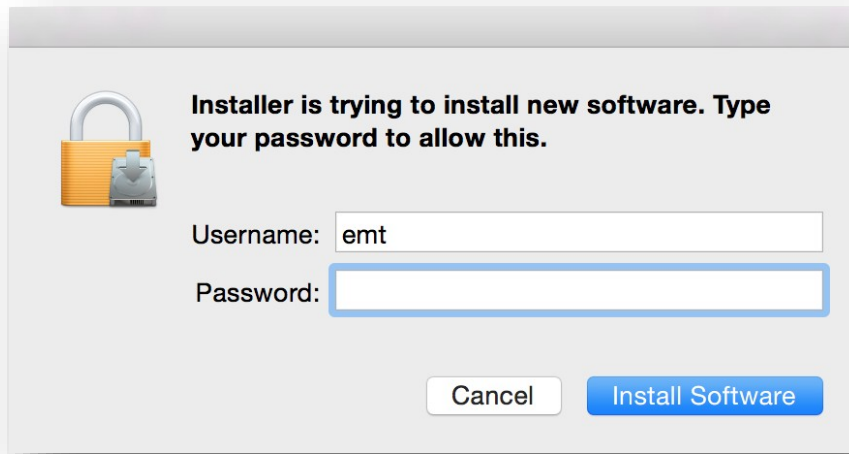

Then click **Install**.

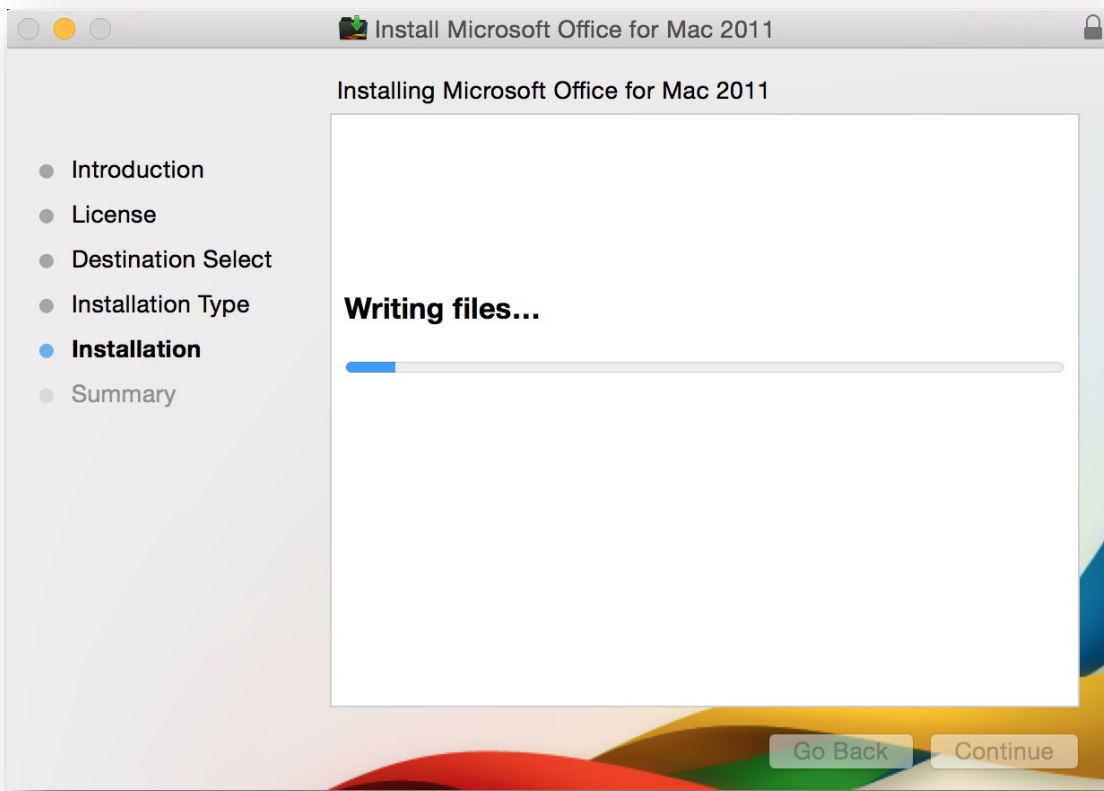

If you have other applications open, this alert may appear. You can **Install Later** or **Close Applications and Install**.

Then, you will be asked for permission to install the software on your computer. Type in your computer password.

The installation process will then begin.

Once complete, the Office applications will be successfully installed onto your Mac.
