

# Using Your Blog in SharePoint

---

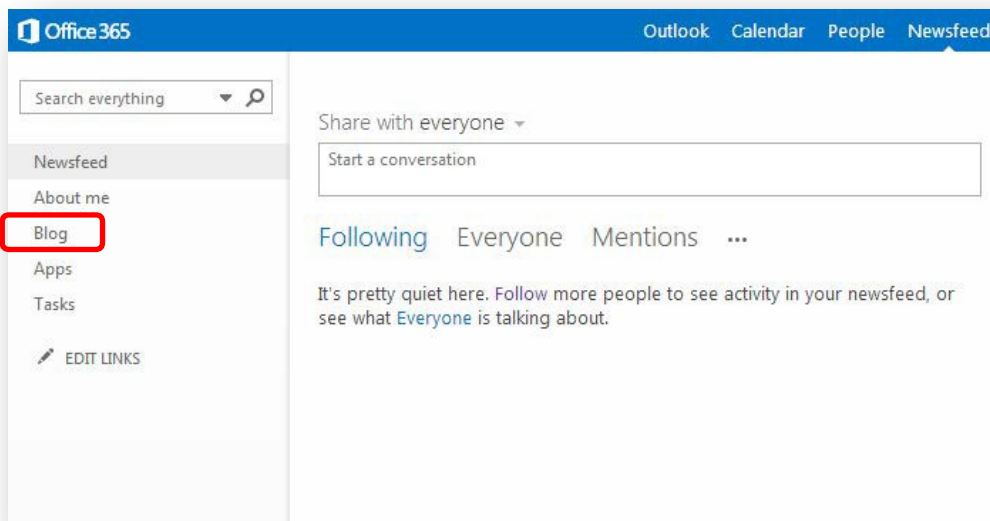

Microsoft's Office 365 SharePoint gives everyone a blog. You can organize posts into different categories. The blog is visible to anyone with a Patriots Email account.

## Creating a Blog Post

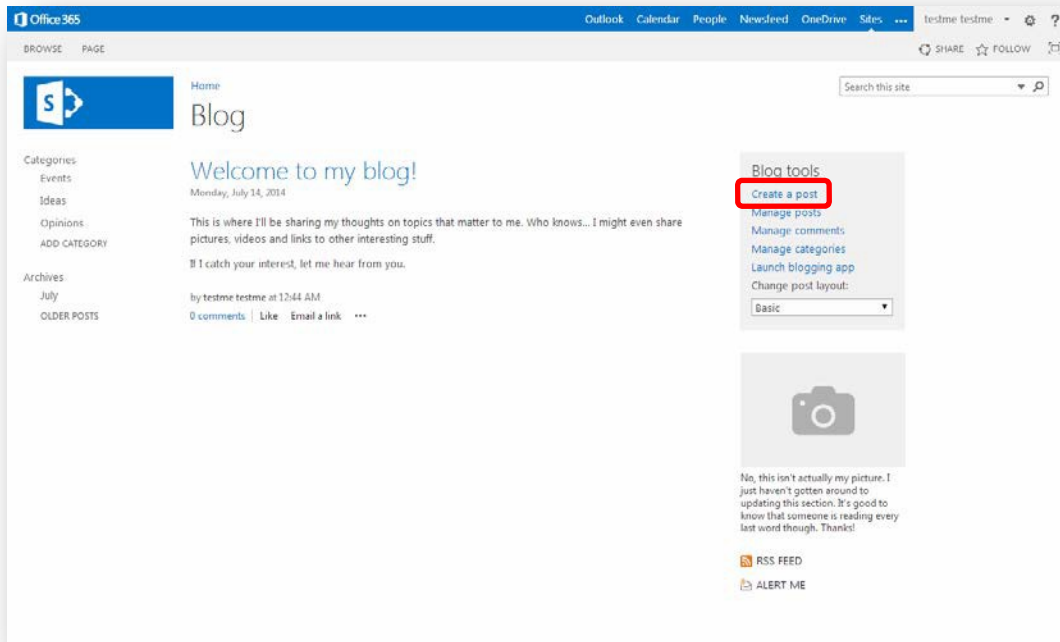

Go to your **Newsfeed**.

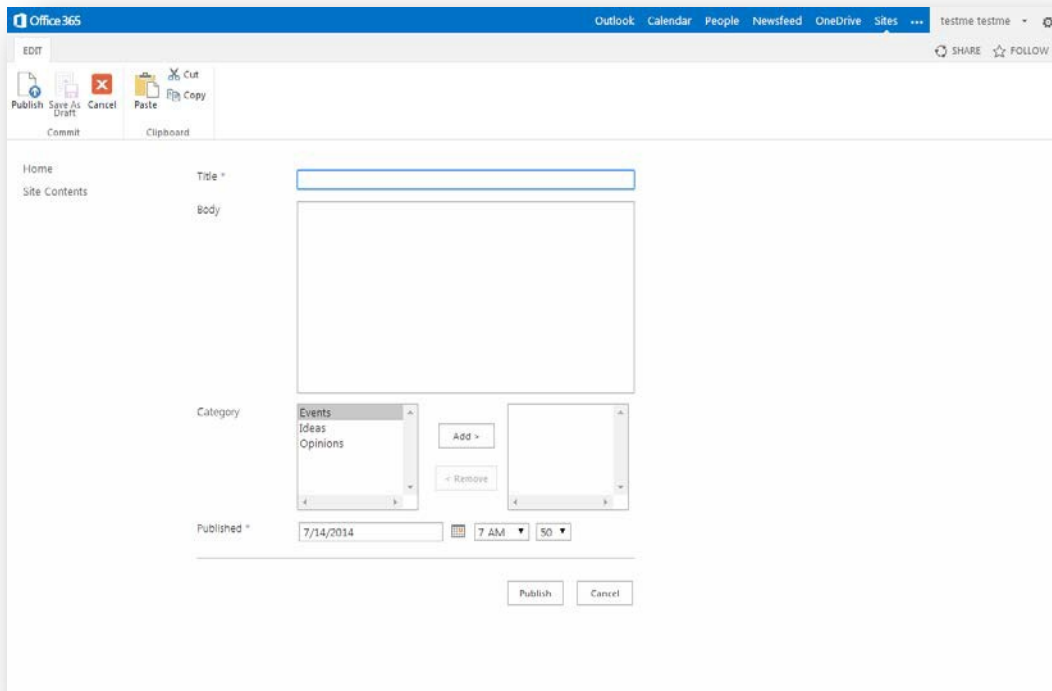

Click **Blog** to get to your blog.

To create a post, click **Create a post**.

Create your post and select the categories it should fall under, then click **Publish**.

You have now created a post on your personal blog.

# Blog

## Go Patriots!

## Welcome to my blog!

Monday, July 14, 2014

This is where I'll be sharing my thoughts on topics that matter to me. Who knows... I might even share pictures, videos and links to other interesting stuff.

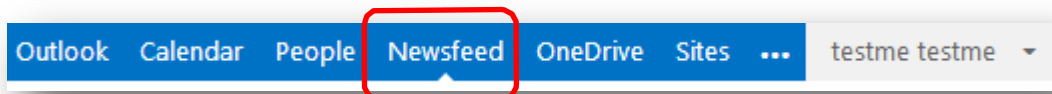

If I catch your interest, let me hear from you.

## Customizing the Look of Your Blog

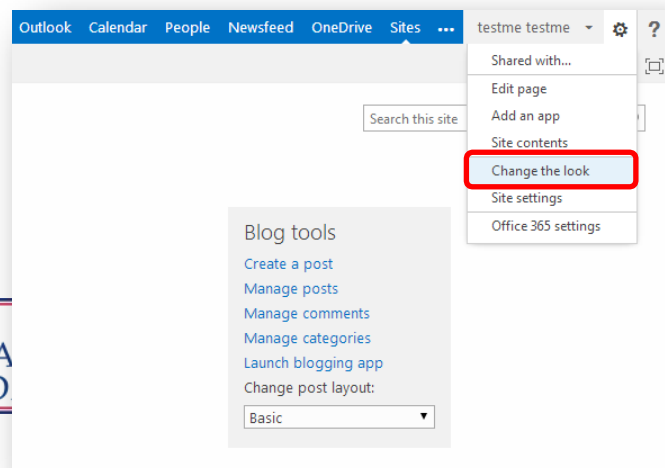

Go to your **Newsfeed**.

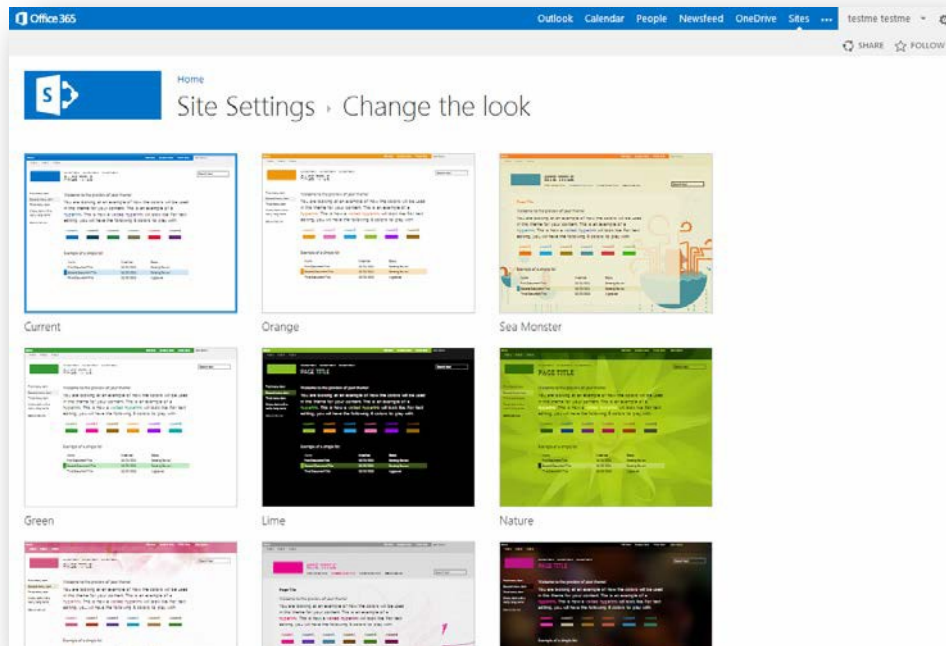

Click **Blog** to get to your blog.

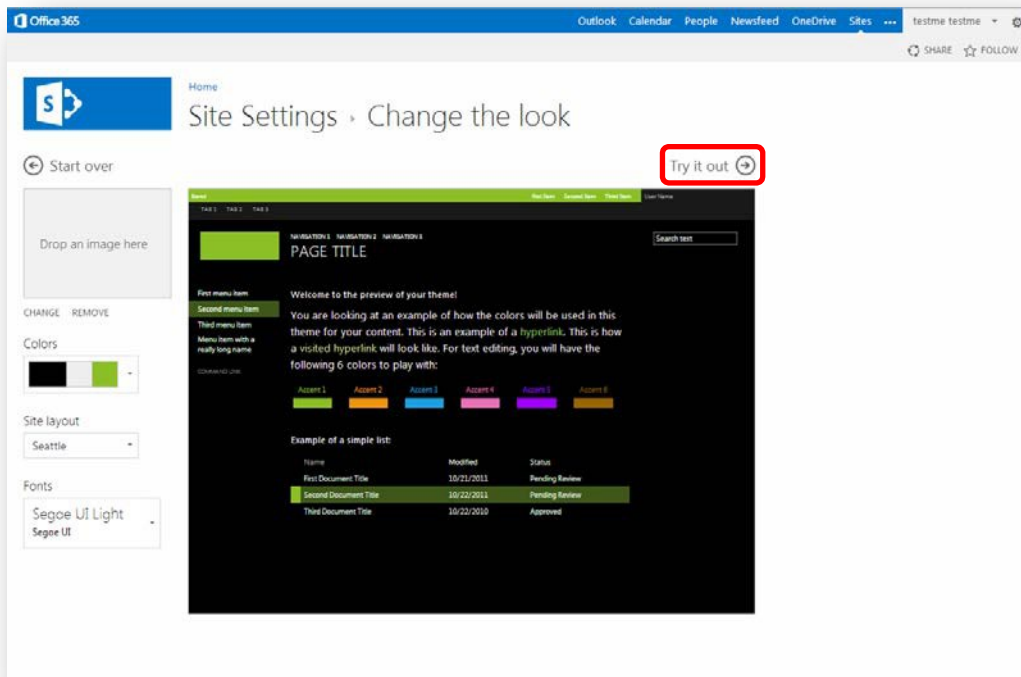

Click the Setting button in the top right corner and click **Change the look**.

Select a general template to use. You will customize it on the next page.

In the sidebar, you can customize the color, site layout, and font. When ready, click **Try it out**.

If you are satisfied with the layout, click **Yes, keep it**. To make changes, click **No, not quite there**.
