Questions & Answers

1. Color device

Question: Minimum speed?

Answer: 80 Pages per Minute minimum

Question: Can the long sheet tray count as one of the high capacity trays if it holds 1,000 sheets of paper up to 30”?

Answer: Yes

Question: Folding inline slows any machine down (not just KM or Canon) and limits the paper types that can be folded. Are they positive they want that inline? An offline folder would be a much better solution.

Answer: Provide offline folding unit.

Question: No controller is specified. What software are they looking for in a controller – Imposition, tab workflow, etc?

Answer: Digital Front End with Impose/Compose capacity – contractor to submit pricing in base bid

Additional line items:

Color device must be able to handle coated stocks and up to 360 gsm stocks.

Color device must have spectrophotometer for on the fly adjustment and registration.

Must have vacuum fed trays.

2. B/W device

Question: Is scanning needed?

Answer: Yes.

Question: Minimum speed?

Answer: 100 pages per minute minimum.

Question: Is decurling needed? Good for NCR forms.

Answer: See paper decurl info in CYMK Color Production Printer on page 18, section 1.1.

Question: What are the paper requirements for the post inserter? How many sheets capacity and what paper thicknesses are required?

Answer: Capability of handling sheets up to 13 x 19 sheet size and must be able to handle coated stocks and up to 360 gsm stocks.

Question: Hole punch needed?

Answer: Yes.

Question: Is there a minimum number of sheets required to be saddle stitched?

Answer: Up to 50 sheets.

Question: Is face trimming required or 3-knife trimming required?

Answer: No trimming needed.

Question: Folding inline slows any machine down (not just KM or Canon) and limits the paper types that can be folded. Are they positive they want that inline? An offline folder would be a much better solution. Answer: Provide offline folding unit.

Question: Is an advanced print controller required? The system comes with an embedded controller, but are workflow solutions needed? That would necessitate an upgraded controller.

Answer: No advanced print controller needed, embedded controller is fine.

Additional line item:

Must have vacuum fed trays.
