COURSE DESCRIPTION

- **General:** This course is an advanced psychology course focusing on the content area of developmental psychology. We will study various physical and psychological aspects of human growth and development from pre-birth until old age and death. This course covers human development stages across the life span.
- **Teaching philosophy and expectations:** I want you to learn the material in this class and be able to apply it to your life and the real world. I will strive to make the learning experience interesting and varied by offering multiple opportunities to interact with the material online and in class. I expect you to participate in this class each week, follow directions, and have an open mind, always giving your best.
- I also encourage you to adopt a Psychological **GROWTH MINDSET** (Dweck, 1999) about your experience in this course. Students who practice a **GROWTH MINDSET** believe their abilities and intelligence³ can be developed with effort, learning, and persistence. Their basic abilities are simply a starting point for their potential. They also measure and reflect their learning in terms of improvement of their abilities and not according to a “fixed benchmark goal” such as a grade, score or percentage. Students who practice **GROWTH MINDSETS** set goals of deep learning, intellectual curiosity and growth and experiences as a reflection of what they have learned in a course. They do not simply focus on and value a grade or score as the most important reflection of what they learned in a course.
- A **GROWTH MINDSET** values understanding and learning as a measure of cognitive performance and not simply a grade, score or credit.
- Students who practice the psychological concept of **GROWTH MINDSETS** are reported to experience greater levels of satisfaction, higher overall academic achievement, deeper and more long-lasting learning, and lower levels of performance anxiety and stress (Dweck, 1999).

GRADING SCALE

This course will follow the CF institution grading scale which assigns a final course letter grade by percentage.

- To figure your course grade, add up your scores on all assignments that have been graded and divide your score by the total number of possible points for the assignments and then multiply by 100.

Example:

My scores: 10/15, 20/30, 4/25 My total = 54 Total possible: 70

Calculation

My total points divided by **total possible points** X 100

54 divided by 70 = .771 x 100 = 77.1% Letter grade = C+

PERCENTAGE	SEMESTER COURSE GRADE
90-100	A
89-87	B+
86-80	B
79-77	C+
76-70	C
69-60**	D**
59 and below	F
Violation of College Academic Integrity Policy	FF

- Exams will be taken online, timed at 75 minutes. They will be 50 questions multiple choice and some short answer questions.

WHAT ARE THE GENERAL EXAM POLICIES?

3. There are NO make-up attempts for missed exams. If a student misses a scheduled exam, he/she will receive a 0 score for that exam and **that exam score will automatically count as the lowest regular test score and will NOT be counted in the final semester course grade calculation.**

WHAT IS THE SPECIAL GRADING REQUIREMENT for THIS COURSE? GORDON RULE

This course has a mandatory writing requirement that must be met at a 70% or above in order to earn a passing grade for the course. This means that all writing assignments must be completed with a minimum grade of C (70%) proficiency AND your overall course grade must be a C (70%) or higher in order to earn a passing grade for the course and have it count toward your degree graduation requirement.

- If the grade average for your reflection writing assignments and your discussion postings **do not** meet the 70% (C) or above requirement, then automatically the highest possible semester grade you could earn for the course would be a D **regardless of the scores on your other learning activities and exams.**
- In addition, a D grade will earn you 3 credit hours for completing the course, but it will NOT count toward your graduation and WILL NOT count toward meeting your General Education degree requirements of successful completion of one institutional core social science course. You will have to retake the course if you earn a semester grade of D or F because you will not meet your graduation requirements.

GRADES & CANVAS GRADE BOOK

- The instructor will post grades for assignments once per week in the course electronic gradebook. It is the student's responsibility to track his/her academic progress and grades in the course. Students will be provided with a grading rubric for each of the writing assignments and discussion board postings that they may view prior to completing the assignment so they may understand the requirements of the assignment and the criteria by which it will be graded. - (1) receive a 0 grade for the assignment
- (2) be reported as not attending status. This may jeopardize or delay any disbursement of financial aid funds.
- **Note:**
- If a student who is receiving Title IV financial aid funds stops attending class during the regular semester (not including final exam week), and does not follow the appropriate withdrawal procedures, the student will not only receive a failing course grade, but the last date of attendance will be reported to financial aid along with the failing grade. The last date of attendance will determine if the student has to repay Title IV funds and/or the amount of the funds the student will have to repay the college under the return of Title IV funds federal policy.

- A withdrawal counts as an attempt under the forgiveness/withdrawal policy and the course repeat policy
- If a course is repeated for the third attempt, there are increased tuition costs for that course (full cost of instruction tuition rates apply). The third

enrollment attempt in the same course will be charged at 3x the cost of in-state tuition rates.

WHEN SHOULD I REGISTER FOR FALL SEMESTER COURSES?

- Registration for FALL semester courses is conducted by a process called **Priority Registration**. Those students who have earned hours may register for spring term courses ahead of those who have no earned hours or who have less earned hours.
- This process provides opportunities for those students who are closer to graduation to enroll in classes before students with fewer number of earned credit hours. This ensures that students have an opportunity to register for the courses they need to be able to graduate on time before the courses are filled.
- The enrollment process for the next semester begins **EARLY** in the current semester. It is important that you know your priority registration date and have your course choices planned out prior to that date.
- You may find your assigned Academic Advisor location and contact information in your CF Student Portal under the Academics tab at the top of the page.
