**Class Schedule:** The following is a suggested pacing for the semester. You can certainly watch the chapter/lecture videos more quickly than this schedule, but do not get behind. Stay current so that you can understand how I want homework assignments completed and submitted. You will also find crucial information in these chapter lectures that you will need for your major speeches. **I expect you to watch each video** so that you can be equipped with all the information necessary for you to do your best on your speeches.

Videos work best when viewed using Google Chrome on a laptop/computer. Do not use the Canvas app.

**Rules for Speeches** (points will be deducted from your speech grade for violating these rules)

1. Stand up while speaking.
2. Make sure the camera records you from the waist up.
3. No lights directly behind you as you speak. Any lighting should be directly overhead or behind the camera.
4. Your final draft outline must be attached to the email containing your YouTube link. It will be typed and submitted as a Word or PDF document.
5. All speeches should be unedited. I should see one continuous speech delivery from beginning to end.
6. Set the camera around chest level so you can look straight into it instead of at a sharp angle up or down.
7. Don't wait until the last minute to submit the speech, especially if your Wi-Fi signal is weak.
8. The deadline is set based on when I receive your speech, not on when you send it.
9. Do not set your YouTube video to "Private." Set it to "Unlisted."
10. Minimize ambient noise. I need to be able to hear you clearly without distractions in your environment.
11. **Do not read the speech. Use your outline for reference but not for reading.**
12. Make sure the volume on your recording device (phone, laptop, etc.) is turned up so that the volume on your video is sufficient for me to hear.
13. Make sure the YouTube video is not upside down or sideways.
14. No chewing gum while speaking.
15. Outside research is required for the Informative, Demonstration, and Persuasive speeches.
16. Set your camera so that you do not have to hang onto it. Your arms/hands should be free to gesture.
17. The camera should stay on you throughout the speech.
18. Visual aids are not required for the Commemorative speech (despite what I say on the Visual Aids video). They are only required for the remaining speeches.

\*\*Due to unforeseen happenings, it may be necessary for the course assignment schedule to be altered. I will always strive to be fair about any changes.
