Quick Guide: How to Read Your MyCF Schedule Codes

You can find your class schedule on the MyCF portal under the Academics tab (select the My Classes button). On your course schedule, your class location will be a code of numbers. Here's how to read it.

The first set of numbers is the **campus**. The second set is the **building number**. The third set is the **room number**. So 0001 / 10008 / 108 would be Ocala Campus (1), building 8, room 108.

- **Hybrid (Online and In Person):** The days/times the class meets in person will be listed with a non-0099 campus code at the beginning of the Room column, and include an online date code which let's you know there is an online portion but it is not being held at a specific time.
