The focus of our care teams, composed of registered nurses, pharmacists, social workers, dietitians and physicians, is to help your Florida Blue patients understand and manage their chronic conditions. Working with you, our care teams can provide:

- ❖ Personalized guidance and coordination for health care needs from the simple to the complex.
- ❖ Programs and classes to promote chronic condition self-management and attainment of health care goals.
- ❖ Assistance in finding community resources to support medical management, transportation, food assistance, financial resources and guidance on how to use their health plan benefits.
