- C. OTHER (Set forth in Item 8 below)

IMPORTANT: BIDDER IS NOT IS REQUIRED TO SIGN THIS DOCUMENT AND RETURN 1 ORIGINAL SIGNED COPY(IES) TO THE ISSUING OFFICE.

8. DESCRIPTION OF ADDENDUM:

The purpose of this addenda is to clarify and answer the following questions submitted for ITB 24-3:

1. **FOOTERS:** Sheet A010 of the Architectural Plans refers to "Demolish existing sign structure and foundations complete." Does the client prefer a) the footers of the existing sign to be completely removed, or b) would it be acceptable to cut the steel at ground level and cover the footers with soil and sod?

Answer: We would prefer to have the footers removed completely and the area to be restored with sod.

2. **REPURPOSING:** Remove existing digital sign boards and store for reuse. Please provide the following detail if available:
 - Manufacturer Vantage LED
 - Model Number:
 - Serial Number(s):
 - Unit Age
 - Operating Software
 - Communications

*Would the client prefer to have these units evaluated by contractor during possession to assess their functionality and estimated operating lifespan? A report of the findings should be made available to the client. Additionally, would the client prefer the signboard enclosures to be coated with a new paint finish to align with the aesthetics of the new sign components?

Answer: We are confident in the functionality and current lifecycle of the existing signage and are not interested in an evaluation. We would accept and add alternate to re-paint the signboard enclosure. Unfortunately, the data plates are weathered and we do not have great documentation on these but enough information to assist.

Model # - G5-20-RGB-60X168-CB

Serial #'s – Too faded to distinguish, no other data available.

Unit Age – 5/2018

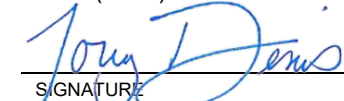

Operating Software – I.T. believes it is a Lenox program

Communications - Wireless

3. Most cost-effective way to produce sign without compromising its purpose, structural integrity and general aesthetics.

Answer: The College does not believe that there is any value engineering that would provide the product we would like other than the removal of the original sign footer. As such, the College will accept alternate pricing on the job without the removal of the footer.

9. AUTHORIZED SIGNATURES REQUIRED
