SECTION A

PROJECT OVERVIEW

This project includes the replacement of 26,000 gross square feet of existing facilities on the south section of the Ocala Main Campus that were originally constructed in the late 1960's and late 1970's that are no longer economically feasible to operate and maintain. These facilities require roof replacements, upgrades to HVAC and building automation systems, building envelope modification and the replacement of their life safety systems. These buildings meet the Castaldi Raze/Replacement Permanent Building criteria vs. Renovation or Remodeling. The projected 50-year Life Cycle of this replacement facility will eliminate a large portion of the college's current deferred maintenance and provide state of the art building systems reducing maintenance and operating costs. The facility will be constructed with the latest state of the art simulation components with all the required information technology and audio-visual components to support the Criminal Justice programs. Pending project funding the existing buildings will either be scheduled to be razed or will be used for storage until such time funding becomes available.

The Criminal Justice Institute at The College of Central Florida (CF) includes the following programs: A.S. Criminal Justice Technology, Criminal Justice Technology-C.C.C., Florida Law Enforcement Academy, Corrections Basic Recruit Academy, Crossover from Corrections to Law Enforcement, Crossover from Law Enforcement to Corrections and all Advanced and Specialized courses authorized by the Florida Department of Law Enforcement. The Florida Law Enforcement Academy, Corrections Basic Recruit Academy, Crossover from Corrections to Law Enforcement and Crossover from Law Enforcement to Corrections are limited access programs. Our community has need for more than we can offer given limited resources. The Department of Economic Opportunity's National Occupational Forecast sees a nearly 9% growth in the need for protective service occupations. This does not consider the population increases we are experiencing locally and the increasing need for local law enforcement/corrections personnel. We have several institutions in our region that offer competition to our program. Our limitations in space and technology are encouraging students to find alternate accommodations for their education degrees workforce certificates.

Currently, the Criminal Justice programs utilize several buildings on the Ocala Main Campus. We also use two offsite locations for firearms and driving courses. The Criminal Justice Institute needs enough space to conduct the academy cohorts, while also giving the degree seeking students an ideal environment in which to learn. Due to the lack of space and older construction, scenario-based instruction in the academies often disturbs academic instruction. Moving around is an option, however, we are often met with HVAC and space

limitations as some classrooms are smaller. We assist Health Sciences with a disaster drill each year. A modern facility design would certainly enhance the learning experience for all involved. This began as a faculty driven initiative funded initially through an Endowed Grant from the CF Foundation and has grown into an innovative learning experience for both Criminal Justice and Health Sciences students.

This building proposal would result in better prepared students who can offer a higher quality of service to Florida citizens. The CF Criminal Justice Institute is in the process of reviewing our programs to ensure we are meeting the needs of our stakeholders. We must keep up with the demand of the entities in our region as they grow. We routinely host sponsored cohorts for the Marion County Sheriff’s Office and the Ocala Police Department. Other partners such as the Gainesville Police Department and the University of Florida Police Department have also began sending us their recruits. We have serviced over 2,000 students in just the workforce programs over the past three years. This number is only expected to increase. The A.S. degree program is also starting to grow as we recover from the pandemic. The College of Central Florida offers a BAS degree that can be an essential link for the career path in many Criminal Justice occupations.
